Profile

The human mind is capable of limitless possibilities and ideas; it's only a question of which ones are chosen for the task at hand. Whether the task is conceptualizing, sketching, drafting, 3d modeling, sculpting, digital drawing, storytelling, and/or filmmaking. Of these tasks, I have never failed to meet a deadline or quality issue- be it for myself or for a company.

Education

Degree: Bachelor in Architecture (5 year), May 2009
College: Virginia Polytechnic Institute and State University (Virginia Tech) Blacksburg, Virginia
